V K Kalyan  
**Dr. V.K. KATIYAR**  
 DEAN  
 (ACADEMICS & RESEARCH)  
 University of Patanjali, Haridwar

- Does the institution make any additional efforts in creating a pool of various value added subjects (beyond the scope of Yoga such as language, skills, arts & crafts etc) and provides the horizontal flexibility for the students to engage and unfold? If yes, provide details
- Educational institutions in modern India and across the boundaries have seen tremendous development in the last few decades. The achievement in academic brilliance has been accompanied with innovation, integration with industry and internationalization has built up a qualitative approach in understanding the natural phenomenon and holistic implication in the area of teaching, training and developing students for the better future. The inter-disciplinary approach and implementation in students and teachers, modern scientific approach to understand the problems and provide the solutions based on natural resources and ancient Indian sciences. The same can be seen in the designing of programs and courses which focuses on the skill enhancement through extensive training, memory development through shashtra smaranam, creative writing, personality development through various training and discourses from HH Swami ji Mahargya Shradhey Acharya Shri, Patanjali Research Foundation Trust (PRFT) and, Patanjali Research Institute (PRI).
- There are various distinct courses such as certificate course in Sanskritam, Sambhasanam, Bhartiye Sangat serves a multitude of purposes for students. They are sometimes used to bridge the gap between different phases of academic study, or to provide additional professional qualifications.
- The integration of value added courses serves to enhance the latent talent and innate capabilities in students and provides them to meet the needs of the contemporary dynamic environment. It supplements students learning and enhances the preparedness to address the professional challenges. The programs at UoP facilitates in acquiring a more holistic perspective and caters better understanding of issues and, problems to meet the optimum outlook for better solutions through creative skills, along in academic learning, critical thinking skills, personal development and scientific procedures and value based curriculum increases the students' engagement, sustainable future ahead. The effective integration of modern technology, innovation, safety modernity scientific procedure with high values, ethics and tradition for budding leaders of the corporate, social, cultural and spiritual world and strive to build a sustainable eco-system which focuses in nurturing the problem solving strategies.
- UoP pivots on building a sustainable eco-system which focuses in nurturing the adaptive innovation and, dynamic experience.
- The integration of value added courses to enhance the latent talent and innate capabilities in students and provides them to meet the needs of the contemporary dynamic environment. It supplements students learning and enhances the preparedness to address the professional challenges. The programs at UoP facilitates in acquiring a more holistic perspective and caters better understanding of issues and, problems to meet the optimum outlook for better solutions through creative skills, along in academic learning, critical thinking skills, personal development and scientific procedures and value based curriculum increases the students' engagement, innovation, safety modernity scientific procedure with high values, ethics and tradition for budding leaders of the corporate, social, cultural and spiritual world and strive to build a sustainable eco-system which focuses in nurturing the problem solving strategies.
- The high value of 70.05% shows the diverse field academic curriculum with value based education system for skill enhancement, language environmental science and problem solving strategies.

practical/ project based learning in the various courses across different program at UoP.

### VALUE ADDED COURSES ACROSS DIFFERENT PROGRAMS (2017-2022)

Out of Total 2439 courses offered by the university, 1709 courses are based upon the skill enhancement; language skills; environmental science, and value based proving a dynamic approach of learning in UoP.
